

TANZANIA

Authentic East Africa

Welcome to Authentic East Africa, the ultimate hunting destination

Heritage Safaris Ltd. is a seasoned Operator / Outfitter offering world class hunting safaris in the Selous Game Reserve in joint venture with Luke Samaras Safaris. Heritage Safaris is fortunate to be able to work closely with Luke Samaras who is one of the pioneering outfitters and big game hunters in Tanzania and particularly in the Selous Game Reserve.

Tanzania and especially the Selous are considered by many experienced big game hunters as the crown jewel of African hunting. Not only does Tanzania boast a vast game list, but also prides itself on its safari traditions as experienced by the great hunters of yesteryear, catering to its reputation as the ultimate hunting destination in Africa. Heritage Safaris preserves these traditions of an authentic East African safari.

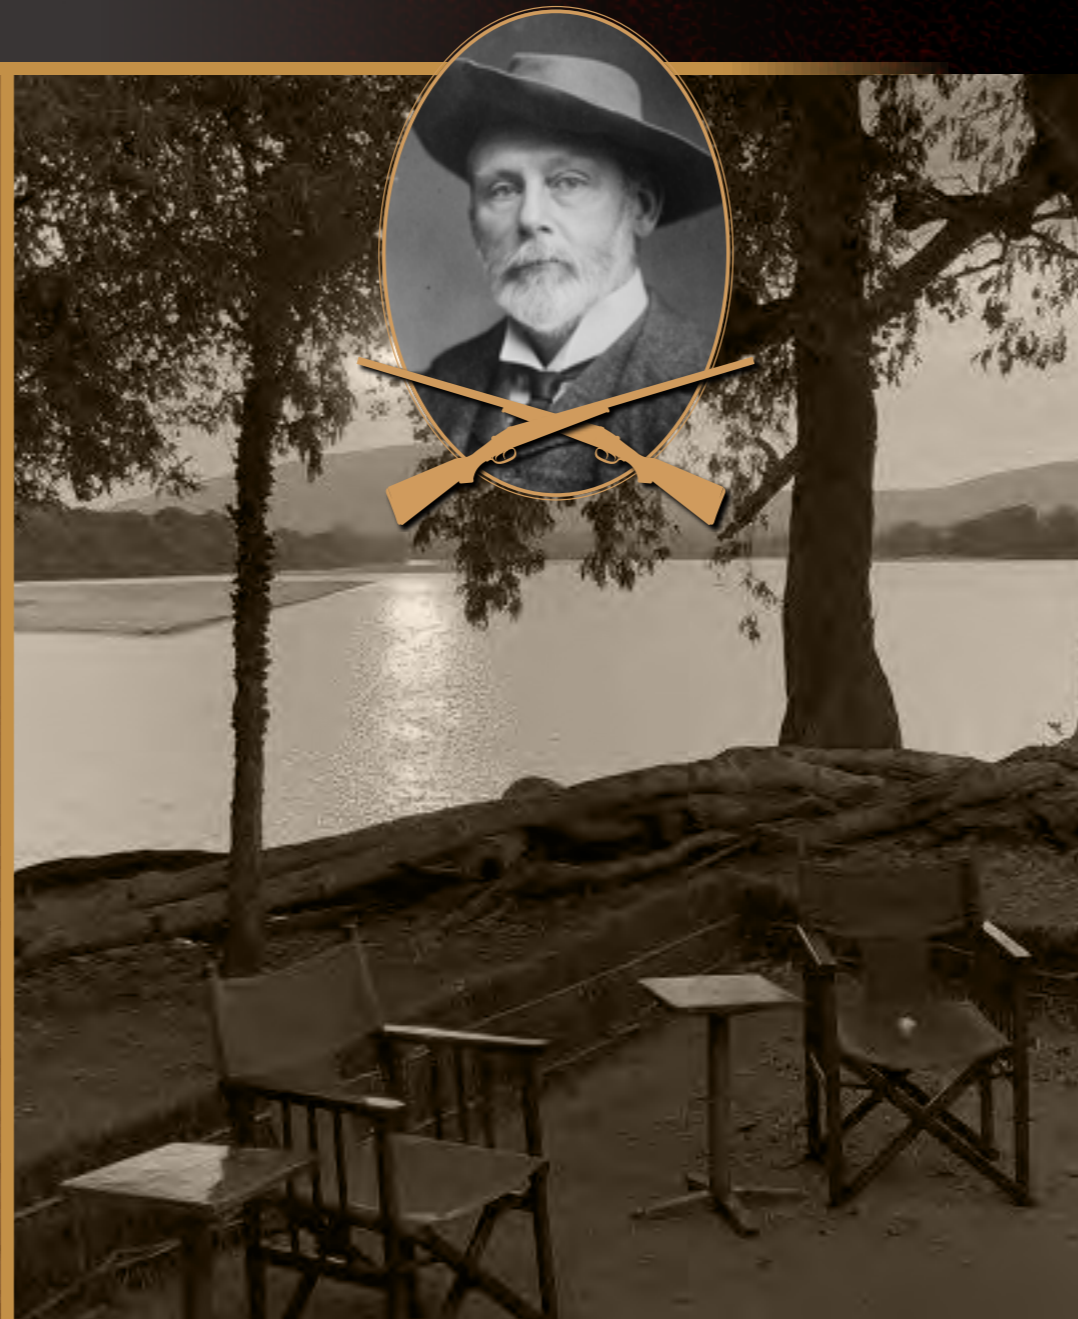

The infamous history of the Selous - Fredrick Courtney Selous

Selous is best remembered as an early explorer into Africa's southern and eastern wilderness, and one of the world's most revered hunters. As he pursued big-game hunting in his African homelands, it was January 4th, 1917, on the banks of the Rufiji river, fighting in the bush war against German colonials, outnumbered five-to-one where he was shot by a sniper.

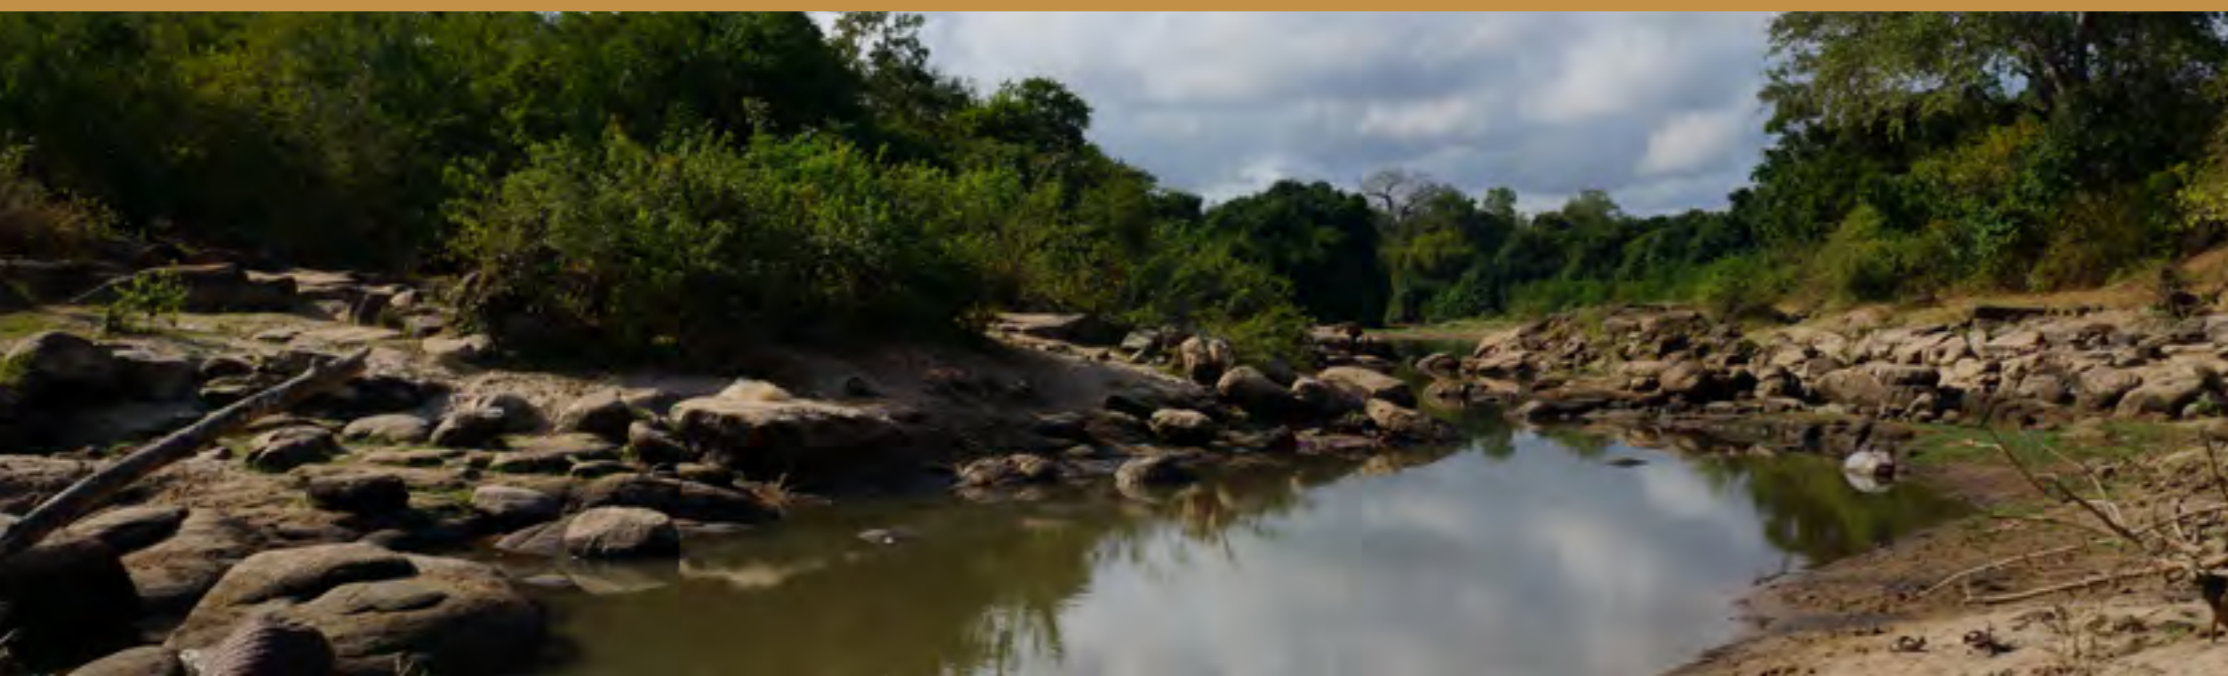

American president Theodore Roosevelt (his close friend) wrote: *"He led a singularly adventurous and fascinating life, with just the right alternations between the wilderness and civilization. He helped spread the borders of his people's land. He added much to the sum of human knowledge and interest. He closed his life exactly as such a life ought to be closed, by dying in battle for his country while rendering her valiant and effective service. Who could wish a better life or a better death, or desire to leave a more honorable heritage to his family and his nation?"*

This heritage is remembered by Tanzania and it is our privilege to host you in the greatest hunting reserve, named in his honour.

Landscape & Species of the Selous

Within the Selous there is no habitation, no cultivation, no physical borders or fences making hunting in this spectacular reserve a truly wild and free range experience. The terrain in the Selous varies dramatically from relatively flat savanna to dense Miombo woodlands to rugged mountains accommodating to every level of physical capacity.

The Selous is renowned as the ultimate hunting destination for dangerous game in Eastern Africa. Furthermore, there is a thriving variety of Plains Game including some rare species such as Roosevelt Sable, Nyasa Wildebeest, Harvest Red Duiker and more.

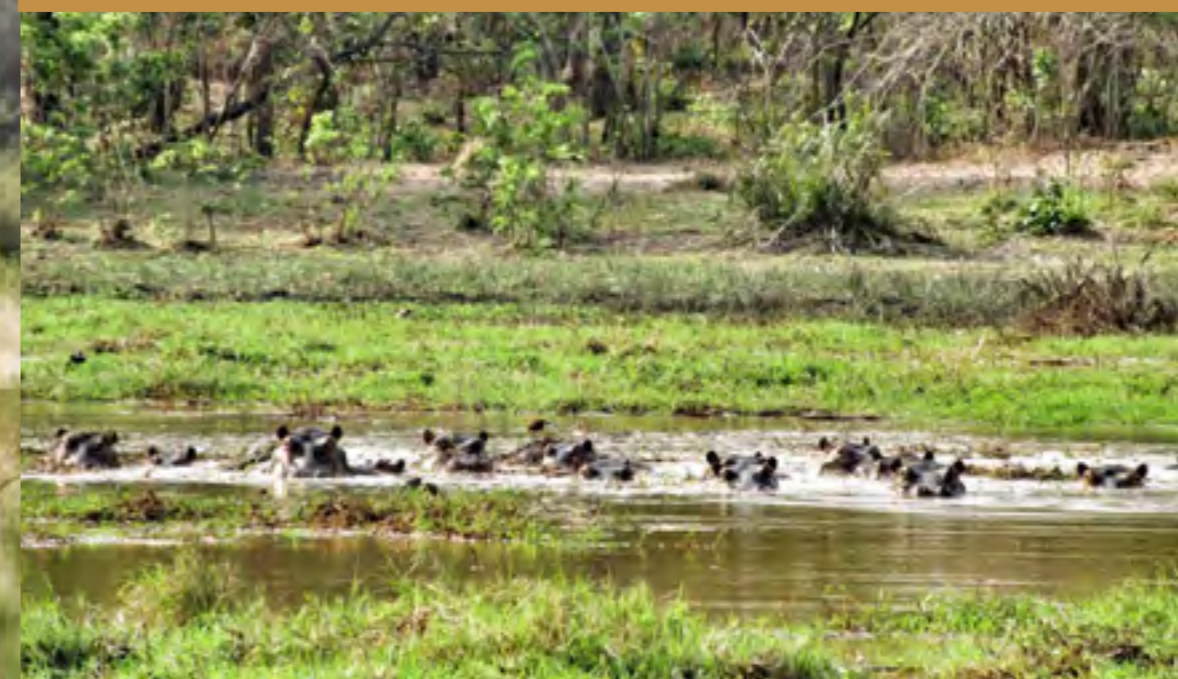

Prime Concessions

Heritage Safaris operates on 2 of the prime blocks in the Selous Game Reserve; LR1 & MS1. Combined these blocks consist of almost 300,000 hectares / 750,000 acres of pristine African wilderness specifically set aside for world-class hunting without equal. Our concessions hold a high population of game due to the diversity of the terrain including many sand rivers, vast thickets and fresh springs.

LOCATION OF SELOUS GAME RESERVE

Conservation efforts

Conservation and anti-poaching are one of the primary areas of focus for Heritage Safaris & Luke Samaras Safaris. Year after year we dedicate our efforts and resources to managing antipoaching units in our areas together with TAWA (Tanzania Wildlife Management Authority). Our continued efforts over the years have resulted in a drastic reduction of wildlife poaching for both the illegal trade of species and illegal bush meat in our concessions. Our anti-poaching programs are well thought out and meticulously planned to ensure ongoing success.

Authentic fair chase hunting

*W*eritage Safaris is a strong advocate of ethical, fair chase hunting to ensure thriving populations of wildlife in our concessions. We are long standing members of African Professional Hunters Association (APHA) & Custodians Of Professional Hunting SA (CPHC) and proudly believe and adhere to their regulations of hunting.

We work with a team of exceptionally experienced trackers whom are some of the best in the hunting industry and familiar with the terrain as well as the movements and behaviours of the different species, which is key in ensuring consistent success of our hunts.

Hunting is permitted throughout the entire year in Tanzania, however the prime hunting time in our concessions are between July - November.

Traditional East African Hunting camps

Step back in time to the era of old world charm and grace in one of our 2 camps; Luhombero & Mswega. Experience traditional East African life as it was hundreds of years ago combined with all the comforts and necessities of today. Our welcoming and well trained staff will assure that your every need will be taken care of.
